College of Journalism Liberal Arts Check List

Accreditation regulations require that 65 of the 80 credits earned outside of journalism and mass communications be liberal arts credits. The following checklist outlines UMCP's non-liberal arts departments. Make sure you keep track of your non-liberal arts courses so that you can accurately determine when you will earn your journalism degree. If you are not sure whether a course would count towards liberal arts, check with your advisor. If a student has more than 57 credits that are not liberal arts, they will need more than 122 credits to graduate.

Projected Total Earned Credits:	92
less projected Non-Liberal Arts GRAND TOTAL:	17
less projected JOUR major credits earned:	16

Total must be at least 65 liberal arts credits: **57** ** After: **FA20** (semester)

** If the total is less than 65, additional liberal arts credits will need to be completed in order to graduate.

Departments that count towards the 65 liberal arts credits (excluding experiential education courses):

[illegible]

*Courses that fulfill CORE or GenEd requirements, regardless of their departmental prefix, also fulfill liberal arts requirements.
